**“Two Worst Toxic Offenders on Long Island”**

By Guy J, Conservation Chair

Long Islanders depend on groundwater as our sole source of drinking water. We must protect this aquifer to ensure protection of our health and our environment. Unfortunately, new and alarming information compiled by the NYS Department of Environmental Conservation (DEC) documents 117 active pesticides found in our water supply. While that might sound like too much to even get a handle on, there are 2 main culprits whose elimination would bode very well for us. *The DEC needs to immediately ban the worst two toxic offenders—metalaxyl and imidacloprid—from use on Long Island.*

Imidacloprid was recently released from its patent and can be found in hundreds of products used to control insects on lawns, turf, golf courses, gardens, farms, pets, ornamental plantings, and in households. It is a known neurotoxin and can cause damage to the nervous system. Imidacloprid has also been linked to the significant decline in honeybee populations, known as Colony Collapse Disorder. As a result, it was recently banned in the European Union. It is also toxic to fish and crustaceans. *According to the DEC, from 2001 to 2010, imidacloprid was detected 890 times at 179 locations in Long Island's groundwater.* The chemical has been found in concentrations as high as 407 ppb - far in excess of the 50 ppb drinking water standard.

Metalaxyl is a fungicide that readily leaches in sandy soils and is highly soluble in water; these properties, in combination with its long persistence, pose a substantial threat of contamination to our groundwater. Metalaxyl is EPA Acute Toxicity Class II (moderately toxic). It is linked to kidney and liver damage and is toxic to birds. *According to the DEC, there have been 1,327 detections of metalaxyl at 546 locations in Long Island's groundwater.*

These numbers offend reason. For our families, for our future, for the protection of our natural world, we must speak loudly and demand a full and permanent ban of these poisons.

**ACTION ALERT:** Submit a comment to the DEC via email: [LongIslandStrategy@gw.dec.state.ny.us](mailto:LongIslandStrategy@gw.dec.state.ny.us)

Urge the DEC to:

- Ban the use of the two most prevalent pesticides detected in Long Island's groundwater—*metalaxyl and imidacloprid!*
- Identify and assess safer alternatives to toxic pesticides found in Long Island groundwater.

Come join us for 9 holes of golf at 3 Long Island courses. A nice way to kick-start your weekend and step on some NHOC mileage.

Gull Haven Golf Club - Joel

Gull Haven Golf Club (<http://www.gullhavengolf.com>) is a beautiful and well-maintained course; a jewel of the Town of Islip. Gull Haven is a very friendly course with flat open holes and no water hazards, but don't let that friendliness fool you, the real challenges of Gull Haven are the small greens, which make accuracy a must for your approach shots. A par 35 course, yardage ranges from 2400 to just over 2700 yards, perfect for everyone. **RESERVATIONS ARE STRONGLY RECOMMENDED AT THIS COURSE.** Please contact Joel to reserve your spot at joel.xxxxxx by noon the day before; i.e., xxxxxx. 9 hole fees: \$14- Islip residents, \$18- non-res, \$10 - senior/handicap; \$2 reservation fee, pull carts \$3, riding carts \$12/pp. See website for directions and additional info. Date: xxxxx

Heartland Golf Park

Heartland Golf Park (<http://www.heartlandgolfpark.com>) located in Deer Park/Edgewood across from the LIRR station, is a 9-hole par 3 course. Heartland Park also has a state-of-the-art automatic Tee-up driving range, and miniature golf. Arrive early and hit a few long clubs before tackling the par 3s, each of which is designed from a world-class PGA par 3 like Sawgrass' 17th hole island green. Cost: \$10 for 9 holes, pull carts \$3. See website for directions and additional info. Date: Oct. 25

Peninsula Golf Club

Peninsula Golf Club (<http://peninsulagc.com/>) located at 50 Nassau Road, Massapequa is a charming privately owned nine hole golf course open to the public. A par 37 course, yardage ranges from 2963 to just over 3300 yards. Another terrific course for both new and experienced golfers. **RESERVATIONS ARE STRONGLY RECOMMENDED AT THIS COURSE.** Please contact Joel to reserve a spot at xxxxxx by noon the day before; i.e., Thursday. Cost: \$19 for 9 holes, \$3 reservation fee, pull carts \$3, riding carts \$17/pp. See website for directions and additional info. Date: xxxxxx xxxxx

## HIKE REPORTS 2013

---

**Xxx July xx:** Thank you to Lew for organizing and leading such a wonderful outing on the North Fork. It was great to see so many friends in such a beautiful succession of idyllic summer settings. We began with a 3 mile hike at Wildwood State Park led by Rhonda and Janet. After the hike we went on to picking up our pies for dessert at Briermere Farms; then on to Harbes Farm Stand for light listening of music while we ate our lunch. After lunch and dessert (great pies) we all headed over to Pindar Vineyards where we listened, and some danced, to Tommy Sullivan who was very entertaining, formally a member of the Brooklyn Bridge. At the end of the day some went on to Spicy Ribs, while others to Cody's, for dinner before returning home. A wonderful day with perfect weather and friends!

**Aug 9 - Aug 11 Catskills Weekend:** On this weekend organized by Quyen and Dennis, seventeen NHOC members stayed at the Red Ranch Motel in Palenville, NY. On Friday afternoon, after we checked in to the Motel, Quyen led a hike up the mountain to Kaaterskill Falls and Dennis led a hike to Kaaterskill Falls via the recently opened "Rail Trail". On Xxxday we hiked at the North-South Lake State Park, on the blue blazed mountain trail, up past Artists Rock. The views were absolutely breathtaking. After the hike on Xxrday, some of us went swimming at the Motel pool. On Xxxday, Quyen led a hike at the Huckleberry Point Trail and Dennis led a hike at the Esopus Creek Bend Preserve, both in Saugerties. After Dennis's hike, the folks on his hike went into the town of Saugerties for a short walk and lunch. Except for a little rain on Friday, the weekend weather was perfect for hiking. Angela's Italian/American restaurant, just adjacent to the motel, was a great convenience for breakfast, lunch or dinner. Thanks to the fun and friendly group of NHOC members that attended. Let's do it again next year.

## LEADING HIKES

by Dennis

Being a good hike leader encompasses knowing the trails that we lead hikes on, watching for the safety of hikers, and having compassion for our hikers.

While it is extremely important for hike leaders to know the trails by scouting them out prior to leading hikes on them, this is only part of being a good hike leader. We as hike leaders should be constantly watching out for the safety of our hikers.

Some of the things that we should do as hike leaders are: have a 'sweep', stop for water breaks, stop and wait for the group at trail intersections, look back at the group on a regular basis, have a well charged cell phone, cross roadways safely with the group together. Try not to Bushwhack, as Ticks and Chiggers may be lying in wait. Check to see that hikers have enough water and are wearing appropriate footwear. Know the symptoms of dehydration and it's possible resultant, heat exhaustion.

We also need to have compassion for our hikers. From time to time, ask them how they are doing or check to see if a hiker shows signs of distress. If a hiker gets sick/distressed while out on the trails, make sure that the hiker gets safely back, by either another hiker that knows the trail back, or by you, the hike leader, stopping the hike and getting the hiker back.

Several years ago I assembled a list of Hike Leader Guidelines that were approved by the NHOC Board of Directors. If you are an existing hike leader or you are interested in being a future NHOC hike leader and would like a copy, please contact me and I will forward a copy of the NHOC "Hike Leader Guidelines" to you.

**NHOC CLUB HISTORY - 7**

---

*Liberty Walk, April 25, 1986*

*We left Penn Station and walked to the Cabbage Patch Maternity Hospital just in time to see the “birth” of a cabbage patch doll. From here we continued up 5<sup>th</sup> Avenue and saw the lovely Rockefeller Plaza Channel Gardens, visited the Nikon Camera exhibit of World Wide Photography contest winners and then proceeded to the Museum of American Folk Art where we learned that America always was symbolized as a woman – starting as an Indian maiden and finally as the STATUE OF LIBERTY.*

*We were disappointed at the display the Museum of the City of New York had on the Statue but found other exhibits interesting. We went into the Conservatory Garden in Central Park to see their beautiful arrangements of colorful tulips and since it started to rain, most of our party of 6 went home. The two remaining had dinner out and visited the Theatre Museum on Broadway before going home – after a full day in Manhattan.*

*Written by Bertha Pritchard*

It is a pity Bertha Pritchard is no longer with us; it was she who introduced me to most of the city walks I now lead. However walking from Penn Station to 103<sup>rd</sup> St and 5<sup>th</sup> Ave is more than I would be up to now. Does anyone besides me remember the Cabbage Patch Dolls, which were all the rage in the 1980’s and are now forgotten?

**HIKER GUIDELINES:** Hikers should arrive at the meeting place with the proper footgear, lunch or trail snacks and plenty of H2O. If you are unsure of the type of hike or your ability to complete the hike, call the Hike Leader. Our hike leaders are always happy to talk with you about the hike they have planned. Make sure you carry and DRINK YOUR WATER. Don't get dehydrated.

Use insect repellent if desired, watch out for poison ivy and check for ticks after the hike. Brush dirt and bugs off your clothing before getting into the car. Stay with the group; don't get ahead of the hike leader. Be nice to your fellow hikers and have a good day on the trails

Please review the hiker guidelines before showing up for an activity. We would like everyone to have a safe and enjoyable experience.

- Read hike/walk write-up. Take notice of the distance, pace and terrain of the hike. Then decide if you have the ability to participate in the hike.
- Hikers need to have appropriate footwear. Trail shoes or hiking boots are necessary for safety. Sneakers are ok for beach/flat ground.
- Consider appropriate clothing for duration of hike. Temperature, sun, humidity, and wind conditions often changes, so be prepared.
- Hikers must always have water. Include food if the leader suggests it, or you require it.
- Hikers should try to stay together on the trail, and make every effort to complete the hike.
- Cell phones should not be audible, phone conversations limited to emergencies.
- Smoking, alcoholic beverages, or illegal drugs are prohibited on hikes.
- Please contact the leader before a hike, if you have any questions.
- Hikers are to walk with or behind the leader, not running ahead
- Dogs are not to be brought on hikes unless the hike write-up states it is permissible.
